868MHz Duplicator

1st,Remove code

Press the LOCK（NO.A/NO.1）and UNLOCK（NO.B/NO.2）button at the same time, and the LED indicator will flash 3 times then off.

After this, keep and hold the LOCK（NO.A or NO.1）and release the UNLOCK（NO.B or NO.2）button, and press the UNLOCK（NO.B or NO.2）button 3 times, the duplicator led indicator will flash quickly, that means it remove the exist code successful. Now you can come to the next step to copy now.

2nd, copy original remote

Please take the original remote and duplicator as close as possible. Then press one of button from original and one of them from duplicator at the same time, you will see the led indicator fast flash, that is too say you copy original remote successful.
